接納註冊 (全文本)

商標註冊處處長已根據《商標條例》(第 559 章)第 42 條, 接納下列商標的註冊申請。現根據《商標條例》第 43 條及《商標規則》(第 559 章附屬法例)第 15 條, 公布申請的詳情。

根據《商標條例》第 44 條及《商標規則》第 16 條, 任何人擬就下列商標的註冊提出反對, 須在本公告公布日期起計的三個月內, 採用表格第 T6 號提交反對通知。(例如, 若果公布日期為 2003 年 4 月 4 日, 則該三個月的最後一日為 2003 年 7 月 3 日。)反對通知須載有反對理由的陳述及《商標規則》第 16(2)條所提述的事宜。反對人須在提交反對通知的同時, 將該通知的副本送交有關申請人。

有關商標註冊處處長根據商標條例(第 43 章)第 13 條/商標條例(第 559 章)附表 5 第 10 條所接納的註冊申請, 請到 <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0> 檢視電子憲報。

ACCEPTANCE FOR REGISTRATION (FULL VERSION)

The Registrar of Trade Marks has accepted the following trade marks for registration under section 42 of the Trade Marks Ordinance (Cap. 559). Under section 43 of the Trade Marks Ordinance and rule 15 of the Trade Marks Rules (Cap. 559 sub. leg.), the particulars of the applications are published.

Under section 44 of the Trade Marks Ordinance and rule 16 of the Trade Marks Rules, any person who wishes to oppose the registration of any of these marks shall, within the 3-month period beginning on the date of this publication, file a notice of opposition on Form T6. (For example, if the publication date is 4 April 2003, the last day of the 3-month period is 3 July 2003.) The notice of opposition shall include a statement of the grounds of opposition and the matters referred to in rule 16(2). The opponent shall, at the same time as he files the notice of opposition, send a copy of it to the applicant of the application in question.

For applications for registration accepted by the Registrar of Trade Marks under section 13 of the Trade Marks Ordinance (Cap. 43)/section 10 of Schedule 5 to the Trade Marks Ordinance (Cap. 559), please view e-gazette at <http://www.gld.gov.hk/cgi-bin/gld/egazette/index.cgi?lang=c&agree=0>.

products; vibration detectors; vibration sensors; displays, electronic; displays (electronic); display units, TV receivers as well as film and video equipment; indicator lights for control panels; indicator lights for telecommunications equipment; indicator lights with backlighting; digital display monitors; digital display panels; digital display units; digital display panels for signs; electric display units; electronic displays; electronic display panels; electronic numerical displays; graphics display units; LED displays; measuring devices with digital displays; optical display screens; programmable digital display units; connecting parts for electrical wiring; electrical circuit breakers; heat-resistant electrical wiring; couplings for electrical wiring; action cameras; digital cameras; cameras; mobile computers; carry containers for mobile computers; battery chargers for tablet computers; covers for tablet computers; docking stations for tablet computers; cases for tablet computers; supports for tablet computers for use in vehicles; supports for tablet computers; covers for tablet computers; wireless headsets for tablet computers; leather cases for tablet computers; tablet computers; battery chargers for mobile phones; mounts adapted for mobile phones; mounts adapted for mobile phones; digital mobile phones; screen protectors in the form of protective film for mobile phones; docking stations for mobile phones; wireless headsets for use with mobile phones; handsfree headsets for mobile phones; handsfree equipment for mobile phones; mounts for mobile phones; headsets for mobile phones; cases for mobile phones; mobile data communication equipment; mobile data devices; mobile communications terminals; mobile telecommunications equipment; mobile telecommunications handsets; mobile phones; mobile phones; mobile phone batteries; mobile phones for vehicles; mobile phone cases made of material or textiles; mobile phone covers made of leather or imitation leather; straps for mobile phones; holsters for mobile phones; carry cases for mobile phones; electric controllers; electric control systems; electric control apparatus; electric control devices; electronic controllers; Ethernet controller; remote controls for controlling electronic products; wireless controllers for remote monitoring and for checking the function and status of other electric, electronic and mechanical devices or

systems; controllers with several connections; control devices for audio signals; memory-programmable controllers; data transmission devices; data exchange devices; apparatus for transmitting data; apparatus for data transfer; data input devices; data terminals; data acquisition devices; data output devices; remote data transmission apparatus; remote data transmission devices; data communication apparatus; data communication receivers; data communication equipment; data transmission apparatus; data processing terminals; data processing devices; data processing devices and equipment as well as accessories (electric and mechanical); electronic data processing devices; devices for data communication; devices for recording data; devices for data processing; devices for data storage; devices for transmitting sound, data or images; hardware for data communication; wireless communication equipment for transmitting sound, data or images; mobile data receivers; scanners (data processing); scanners (data processing devices); wireless communication equipment; wired communication equipment; wireless two-way communication systems; electric communication equipment; electronic communication systems; handsets for communication; wireless communication equipment for transmitting multimedia content; communication systems for helmets; communication computers; communication equipment; communication equipment (telecommunications); communication transmission devices; point-to-point communication equipment; ship to shore communication equipment; portable communication equipment; electronic scanners; optical scanners; scanners; portable scanners; antennae for wireless communication apparatus; wireless audio and video receivers; wireless receivers; wireless transmitters and receivers; wireless telephones; devices for wireless radio transmission; devices for streaming media content via local wireless networks; computers worn on armbands; mobile computers; leather cases for mobile phones; mobile digital electrical equipment to provide access to the internet; mobile displays; mobile electronic digital communication equipment; mobile communication equipment in the form of watches; mobile monitors; mobile personal computers; mobile test equipment; mobile smartphones; mobile telecommunications equipment; mobile telecommunications apparatus; mobile phonographs; mobile sound

reproducing apparatus; mobile radio terminal; barcode scanners; all being used for or related to explosion protection and safety engineering.

Class 11:

Lamp housings; electric heating cable; electric heating systems; heating systems; heating systems for hot water supply pipes; heating, ventilation and air conditioning systems; heating systems; heating systems for liquids; heating systems for gas; heating systems for commercial purposes; heating systems for nitrate solutions; heating systems with closed loop; heating systems for installation in windows; heating apparatus and systems; heating devices for commercial purposes; heating devices for residential premises; radiator elements; heating frames; industrial heating systems; combined heating and air conditioning devices; radiators (heating); skin effect heating systems; control devices (thermostatic valves) for heating systems; control units (thermostatic valves) for heating systems; environmentally friendly flat heaters with automatic temperature regulation; lighting for use with safety systems; LED safety lamps; lights for safety purposes; control and safety accessories for gas appliances; control and safety accessories for gas pipes; control and safety accessories for water and gas systems; safety lighting; safety lamps; safety light with integrated motion sensors; safety lamps for underground use; lighting systems for display purposes; portable hand lamps (for lighting purposes); portable lamps (for lighting).

Class 37:

heating installation; installation and repair of heating systems; installation of heating systems; installation of skin effect heating systems; installation, maintenance and repair of heating, ventilation and air conditioning systems; retrofitting of heating systems in buildings; retrofitting of heating, ventilation and air conditioning systems in buildings; repair of heating systems; repair of heating systems; routine maintenance of heating systems; maintenance and repair of heating systems; maintenance and repair of heatings; advice on the installation of safety and protective equipment; information relating to the installation of safety systems; installation of a safety system; installation of safety systems; installation of safety and protective equipment; maintenance and repair

of safety systems; construction of oil pipelines; installation and servicing of oil pipelines; repair and maintenance of electronic display panels; repair of cameras; installation of mobile phone systems; installation of data network devices; servicing and repair of data communication networks; servicing of data processing devices; repair and maintenance of hardware for data processing devices; maintenance of data processing devices; servicing and repair of communications systems; maintenance of communication equipment; all being used for or related to explosion protection and safety engineering.

Class 42:

Programming of electronic control systems; technical design of heating systems; analysis and test services in the area of oil exploration; analysis and test services in the area of oil production; analysis services relating to determining the bacterial content of liquids; analysis services relating to identifying the chemical ingredients in liquids; analysis services relating to determining the chemical ingredients in liquids; analysis services relating to checking the chemical ingredients in liquids; analysis services relating to checking the bacterial content of liquids; analysis services relating to identifying the bacterial content of liquids; calibration of analysers; technological analysis services; conducting technical measurements and tests; conducting measurements; conducting technical measurements; measurement of the environment in buildings and civil engineering works; design and development of computer software for process control; process monitoring for quality assurance; advice relating to safety of the environment; research relating to safety; technical advice relating to safety; recording of seismic data; geo-seismic survey; technical advice for the petrochemicals industry; analysis and test services for the oil industry; technical advice for the oil refining industry; monitoring of oil wells; conducting environmental tests relating to vibrations; consultancy services in the area of control technology; development of data transmission systems; authentication services (monitoring) of data transmitted by telecommunications; design and creation of programs for data processing; design and creation of data processing programs; design and creation of software for data processing;

design and creation of programs for data processing; maintenance and updating of software for communications systems.

Class 45:

Safety services for process issues; safety support services in process issues; advice in the area of safety; advice in the area of physical safety; consultancy services relating to integrity and safety; consultancy services relating to safety; safety assessments; monitoring of safety systems; checking factory safety.

electrical circuits modules; integrated circuits; integrated circuit modules; printed circuit boards; flexible printed circuit boards; electronic pens; computer mouse; integrated circuit cards; electric power distribution apparatus; electric power control apparatus; rotary converters; phase modifiers; capacitors; electric capacitors; ceramic capacitors; film capacitors; multi-layered capacitors; power conditioners; electric power controllers; electric inverters; thermistors; converters, electric; current converters; electric power converters; DC/DC converters; DC/AC converters; regulating apparatus, electric; relays, electric; circuit breakers; electrical connectors; electrical control panels; resistances, electric; variable resistors; lighting ballasts; lighting control apparatus; electrical power supplies; power supply modules; voltage surge protectors; surge arresters; chargers for electric accumulators; electrical adapters; amplifiers; power amplifiers; signal amplifiers; switches, electric; electronic switches; connections, electric; contacts, electric; electric sockets; battery chargers; lightning conductors; electric transformers; electronic power transformers; ferrite beads; fuses; electric inductors; electric terminals; rheostats; electric armatures; oscillators; resonators; piezoelectric devices; piezoelectric filters; piezoelectric resonators; buzzers; piezoelectric buzzers; loudspeakers; piezoelectric speakers; tweeters; piezoelectric actuators; batteries; dry cells; electrical storage batteries; lithium secondary batteries; lithium ion batteries; accumulators, electric; manganese dioxide lithium batteries; silver oxide batteries; alkaline manganese batteries; battery modules; battery packs; accumulators, electric; lithium ion secondary batteries; solar batteries; fuel cells; solar panels for the production of electricity; accumulator boxes; solenoid valves in the nature of electromagnetic switches; locks, electric; encoded key cards; electric wires; electric cables; electronic connectors; electric cable connectors; optical fibers; fiber optic connectors; radio-frequency identification (RFID) readers; radio-frequency identification (RFID) tags; labels with integrated radio-frequency identification (RFID) chips; electronic tags for goods; radio-frequency identification (RFID) tag readers and writers; printers for use in the label printing on

radio-frequency identification (RFID) tags; communication apparatus and instruments; optical communication apparatus and instruments; modems; network routers; photoelectric conversion devices for communication; photoelectric conversion modules for communication; sound recording apparatus and instruments; radio communication modules; electronic devices for use in tracking, detecting and positioning of people and objects through communication network; beacon receivers; beacon transmitters; radio beacon machines and apparatus; Global Positioning System (GPS) apparatus; remote monitoring apparatus; remote control apparatus; telecommunication gateway apparatus; navigational apparatus for automobiles; liquid crystal display units for navigation apparatus and television sets; antennas; dielectric antennas; coils, electric; choking coils for use in electrical apparatus; choking coils; magnetic coils; electromagnetic coils; electronic coils; radio frequency filters; electrical filters; optical filters; electronic filters; electromagnetic noise suppression filters; low pass filters; high pass filters; noise filters; electromagnetic wave absorbing sheets; varistors; dielectric filters; ceramic filters in the nature of electronic components; surface acoustic wave filters; microwave filters; acoustic couplers; signal couplers; baluns; multiplexers; duplexers; isolators in the nature of electronic components; circulators in the nature of electronic components; heat sinks in the nature of electronic components; electricity meters; electricity testers; magnetometers; probes for testing integrated circuits; probes for testing semiconductors; probes for scientific purposes; measuring apparatus and instruments; testing apparatus and instruments; sensors; sensors (measurement apparatus), other than for medical use; ultrasonic sensors; infrared sensors; gyro sensors; gyroscopes; tilt sensors; angle sensors; sound sensors; vibration sensors; automotive knock sensors; position sensors; rotary position sensors; rotation sensors; velocity sensors; acceleration sensors; magnetic sensors; money identification sensors; optical sensors; temperature sensors; humidity sensors; pressure sensors; atmospheric pressure sensors; gas sensors; gas concentration sensors; CO2 concentration sensors; odor sensors; smell sensors; timing sensors;

touchscreen sensors; level sensors; motion sensors; human motion sensors; piezoelectric sensors; flow sensors; testing apparatus not for medical purposes; bathroom scales; wearable activity trackers; computer monitors; downloadable or recorded computer software for operating and controlling electronic clinical thermometers; downloadable or recorded computer software for measuring, managing and storing data of patients' body temperatures; computer hardware; data processing apparatus; computer software applications, downloadable; apparatus and instruments for testing and monitoring psychological conditions, not for medical use; detectors; optical apparatus and instruments; photographic apparatus and instruments; cinematographic apparatus and instruments; quartz crystal oscillators; quartz crystal oscillator circuits; quartz crystal resonators; quartz crystal filters in the nature of radio frequency filters; optical quartz crystal devices; quartz crystal optical wave plates; quartz crystal devices for optical lenses; quartz crystal optical lenses; protective window plates being structural parts of laser oscillators, being made of quartz crystals; prisms (optics); optical lenses; optical glass; quartz crystal optical glass; lasers, not for medical purposes; ionization apparatus not for the treatment of air or water; ionizer modules, not for the treatment of air; ozonizers (ozonators), not for medical use; ozonizer modules, not for medical use; electronic apparatus and instruments; smartphones; personal digital assistants (PDAs); wearable computers; computers; computer peripheral devices; computer keyboards; computer display monitors; computer software; downloadable or recorded computer software for use in data detection, collection, analysis and management relating to communications in the field of human resources; downloadable or recorded computer software for use in tracking, detecting and positioning of people and objects; downloadable or recorded computer software for use in managing, monitoring and analyzing of production and manufacturing equipment and systems; downloadable or recorded computer software for use in managing, monitoring and analyzing of working status, environment, safety and health conditions of employees and workers in the construction and manufacturing industries; downloadable or recorded computer software, namely, middleware for use in the management and administration of software

applications on radio-frequency identification (RFID) systems; downloadable or recorded computer software platforms or applications for use in analysis of electroencephalogram (EEG) signals; apparatus for use in analysis of electroencephalogram (EEG) signals, not for medical purposes; electroencephalogram (EEG) signal detectors, not for medical purposes; simulators for simulating the operation of vehicles; simulators for simulating the sporting activities; simulators for simulating the entertainment or recreation activities; downloadable or recorded electronic game software; downloadable or recorded educational computer software; downloadable or recorded computer software for entertainment; downloadable or recorded computer software for business management and marketing; downloadable or recorded computer software for simulating the operation of vehicles; recorded computer hardware and downloadable or recorded software for enhancing feel, vibration and feedback provided from portable electronic machines and apparatus; downloadable or recorded computer software for use in the operation, control and management of electronic devices using haptic technologies; downloadable or recorded computer software, namely, platform middleware for use in design and development of game software applications; downloadable or recorded computer software for two or three dimensional simulation for use in design and development of industrial products; downloadable or recorded computer software for use in the design and development of industrial products; downloadable or recorded computer software for use in analysis using finite element method; downloadable or recorded computer software for use in analysis of electromagnetic waves; downloadable or recorded computer software for use in analysis of magnetic fields; downloadable or recorded computer software for use in analysis of electric fields; downloadable or recorded computer software for use in stress analysis of structures; downloadable or recorded computer software for use in analysis of heat conductions; downloadable or recorded computer software for use in analysis of fluid; downloadable or recorded computer software for use in piezoelectric analysis; downloadable or recorded computer software for use in analysis of sonic waves; electronic game software for arcade video games; phonograph records; downloadable music files; downloadable image files; recorded video discs and video tapes;

laboratory apparatus and instruments; cell culture, purification and concentration apparatus for laboratory and scientific use; metal mesh filtering elements for use in cell fractionation, medium purification, tissue washing, and removal and filtration of serum proteins and contaminations, for laboratory and scientific use; cell culture apparatus for laboratory use; chemistry apparatus and instruments; biochips; magnetic cores; resistance wires; electrodes; magnets; grids for batteries; collectors, electric; plates for batteries; life-saving apparatus and equipment; dust masks; gas masks; welding masks; protective masks, not for medical purposes; fireproof garments; disaster prevention hoods; clothing especially made for laboratories; clothing for protection against accidents, irradiation and fire; gloves for protection against accidents; spectacles; eyeglasses; 3D spectacles; electronic publications, downloadable; exposed cinematographic films; exposed slide films; slide film mounts; teaching robots; humanoid robots with artificial intelligence; telepresence robots; breathing apparatus, except for artificial respiration; resuscitation training simulators; resuscitation mannequins (teaching apparatus); oxygen transvasing apparatus; diagnostic apparatus, not for medical purposes; teeth protectors; consumer video game programs; structural parts and fittings for all the aforesaid goods.

and clocking data signals; portable media players; data processing devices; computer peripheral equipment; video display units in the nature of monitors; audio control and processing recorded software; computer hardware and downloadable or recorded software for monitoring, managing and controlling amplifiers on a network; wireless audio and video routers for routing of video and audio across a network, video-over-IP network, and audio-over-IP network; downloadable or recorded computer software and hardware systems used for designing, programming, commissioning, managing, troubleshooting and creating user graphical user interfaces for audio, video and control in professional audio-visual integrated installations, audio conferencing, video conferencing, teleconferencing, Unified Communications and Collaboration applications, live sound systems, recording systems and cinema video equipment; computer hardware and downloadable or recorded software for audio signal manipulation and acoustic echo cancellation; computer hardware and downloadable or recorded software that employ acoustic echo cancellation technology for removing audio echoes, reverberation, and unwanted added sounds; computer hardware and downloadable or recorded software for audio signal manipulation and microphone array beamforming; computer hardware and downloadable or recorded software that employ microphone array beamforming technology for focusing a wireless signal towards a specific receiving device; computer hardware and downloadable or recorded software for audio signal manipulation in virtual machines; computer hardware and downloadable or recorded software for video signal analytics in virtual machines; computer hardware and downloadable or recorded software for controlling systems in virtual machines; computer hardware and downloadable or recorded software that employ virtualization technology for allowing individuals to use software on various hardware platforms; computer hardware and downloadable or recorded software for voice control of audio, video and control systems; computer hardware and downloadable or recorded software for controlling audio and video systems via voice; computer hardware and downloadable or recorded software for audio and video signal analytics; computer hardware and downloadable or recorded software that employ audio and video signal analytics technology for improving performance, usage,

and reliability of computer systems; computer hardware and downloadable or recorded software used to accept, modify, process, mix, route, transport, amplify, monitor, interface with and control audio signals and control data, and to control audio equipment on a network; signal transport systems and remote management equipment, namely, audio, video and control equipment that enables and governs the routing of audio and control data using a variety of network protocols via network hardware and cabling between and among audio equipment, in the nature of computers, audio and network controllers and computer peripherals and audio transport networking equipment in the nature of signal processors, amplifiers, input/output devices, loudspeakers, microphones, and assisted listening systems for routing of audio, video, and control data; downloadable or recorded software for controlling and processing audio files; video routers and media-presentation equipment, namely, video distributions, input/output endpoints, cameras, USB endpoints, and media servers; downloadable or recorded software for use in creating graphic user interfaces for control and monitoring of video routers and media-presentation equipment; and user manuals in electric format sold as a unit therewith.

Class 42:

Providing temporary use of non-downloadable software for monitoring and management of audio, video and control systems; monitoring of computer systems by remote access to ensure proper functioning; electronic storage of electronic media, namely, images, text and audio data; design, maintenance and updating of computer software for transmitting, delivering, receiving, reproducing, mixing, processing and streaming audio, video and digital media, and for controlling amplifiers and loudspeakers; design and development of computer hardware and software; computer services, namely, remote management of information technology (IT) systems of others comprised of audio, image, or video processing devices; computer services, namely, integration of computer software into multiple systems and networks; providing temporary use of non-downloadable software for audio control, transmitting, delivering, receiving, reproducing, mixing, processing and streaming audio, video, control and digital media; providing temporary use of non-downloadable audio calibration software; providing temporary use of non-downloadable software for

use in controlling microphones; providing temporary use of non-downloadable software for use in recording, processing and optimizing sound, music, voice, and performance of loudspeakers and audio equipment; providing temporary use of non-downloadable software for monitoring, managing and controlling amplifiers on a network; providing temporary use of non-downloadable software for monitoring, managing and controlling amplifiers on a network; providing temporary use of non-downloadable software for designing, programming, commissioning, managing, troubleshooting and creating user graphical user interfaces for audio, video and control in professional AV integrated audio and video installations, audio conferencing, video conferencing, teleconferencing, Unified Communications and Collaboration applications, live sound systems, recording systems and cinema video equipment; providing temporary use of non-downloadable software for audio signal manipulation and acoustic echo cancellation; providing temporary use of non-downloadable software that employ acoustic echo cancellation technology for removing audio echoes, reverberation, and unwanted added sounds; providing temporary use of non-downloadable software for audio signal manipulation and microphone array beamforming; providing temporary use of non-downloadable software that employ microphone array beamforming technology for focusing a wireless signal towards a specific receiving device; providing temporary use of non-downloadable software for audio signal manipulation in virtual machines; providing temporary use of non-downloadable software for video signal analytics in virtual machines; providing temporary use of non-downloadable software for controlling systems in virtual machines; providing temporary use of non-downloadable software that employ virtualization technology for allowing individuals to use software on various hardware platforms; providing temporary use of non-downloadable software for voice control of audio, video and control systems; providing temporary use of non-downloadable software for controlling audio systems via voice; providing temporary use of non-downloadable software for audio and video signal analytics; providing temporary use of non-downloadable software that employ audio and video signal analytics technology for improving performance, usage, and reliability of computer systems; providing temporary use

of non-downloadable software used to accept, modify, process, mix, route, transport, amplify, monitor, interface with and control audio signals and control data, and to control audio equipment on a network; providing temporary use of non-downloadable software for controlling and processing audio; providing temporary use of non-downloadable software for use in creating graphic user interfaces for control and monitoring of video routers and media-presentation equipment.
